

FACULTY ASSOCIATION AGENDA
MEETING WITH DR. KING, DR. SPIZZIRRI, DR. PARNELL
FRIDAY, SEPTEMBER 10, 2021

- I. Grade challenges and chain of command
Mathematical mistake
Syllabus was not followed
Discrimination

- II. Covid

I think it is important to have more clarification about what we can and cannot do in the classroom concerning COVID.

I had a student who has coughed several times through class and another is constantly blowing her nose. Can we say/do anything?

I also want clarification on my own fall allergies which have not arrived yet, but are as predictable as the State Fair. If I am taking allergy meds that mostly control the symptoms, do I need to test myself every few days anyway?

I have hand sanitizer, bleach wipes, tissues and masks available to students in my classroom. Several school districts nearby have already gone online at least for 2-3 weeks. What would have to happen at TVCC for this to happen?

- III. Evaluations

Some are concerned about the inconsistency of the student evaluations of instructors. The prison classes were not given evaluations; therefore, some instructors who mostly teach prison classes during the spring did not get feedback. In addition, some summer courses were not evaluated.

TVCC Policy on evaluating faculty

IV. Maintenance

V. Inequity in loads and overloads

VI. Other matters
